

Explorers this week – 24/03/2019

Hi

We are almost at the end of the Spring term and plans are already in action for the Summer. At the end of the Summer term we'll be holding an Explorer weekend camp devoted to pioneering. You will get the chance to build some of the larger pioneering structures and also the smaller ones; from paracord woggles, bracelets and scale models to playground rides, bridges or towers, this weekend will be jam packed with knots and you should all be leaving with your Explorer pioneering activity badge too. Sign up now on OSM if you would like to attend.

See below for what's on this week at your group!

See you soon,
The Explorer Leadership Team
